Bumi Resources Reiterates Information Sharing Policy to Eliminate Rumors and Protect Shareholders' Interest

"Only Official Announcement Equals Credible Information"

Jakarta, 27 January 2010

Given the frequent and voluminous wild speculation surrounding PT Bumi Resources' corporate actions, financial position and overall operations, which the company's management considers inappropriate and potentially detrimental to the interest of its esteemed shareholders, the Management of PT Bumi Resources, Tbk wishes to reiterate its corporate policy on information sharing and stakeholder communications, in line with its globally acknowledged governance practices, as follows:

1. PT Bumi Resources Tbk. only issues information which is official to industry and market regulators, analysts, mass media, and its shareholders equally, proactively and transparently. Therefore, all information regarding the company is required to be endorsed and issued by the Investor Relations Department - who entertain queries about the company - to ensure credibility and accountability.
2. Until such official announcement is made and issued by the company's Investor Relations Department, we warn every party who has interest in the company to exercise caution, diligence and critical judgment against any information not issued and endorsed by us. This is relevant in today's context of wild speculation and rumors.
3. PT Bumi Resources Tbk. continues to be accessible and responsive to its esteemed stakeholders - through information we customarily provide frequently on the company's web site, circulars, letters, releases, conference calls etc.
4. PT Bumi Resources, Tbk lays utmost importance to relationships the company has built over time with individual shareholders and the investment community. Being prudent, firm, credible and accountable on the company's information sharing and communication practices underscores the company's commitment to protect shareholders' interest and to enhance mutually beneficial relationships with all our stakeholders.
5. The above policies have been the company's main guiding principles to ensure that PT Bumi Resources Tbk and our objective is to remain the most trusted, respected, and preferred corporate by our stake holding community.
